IMPORTANT ADDITIONS

TO THE LINE OF MODERN

INSTITUTIONAL FURNITURE

MANUFACTURED BY

HOWELL

ST. CHARLES, ILLINOIS

AT RIGHT: No. 2202 Encore Chair in F25 Black Channel Upholstery.

BELOW: No. 4202 Encore Chair upholstered in F24 Blue Chromata Channel.

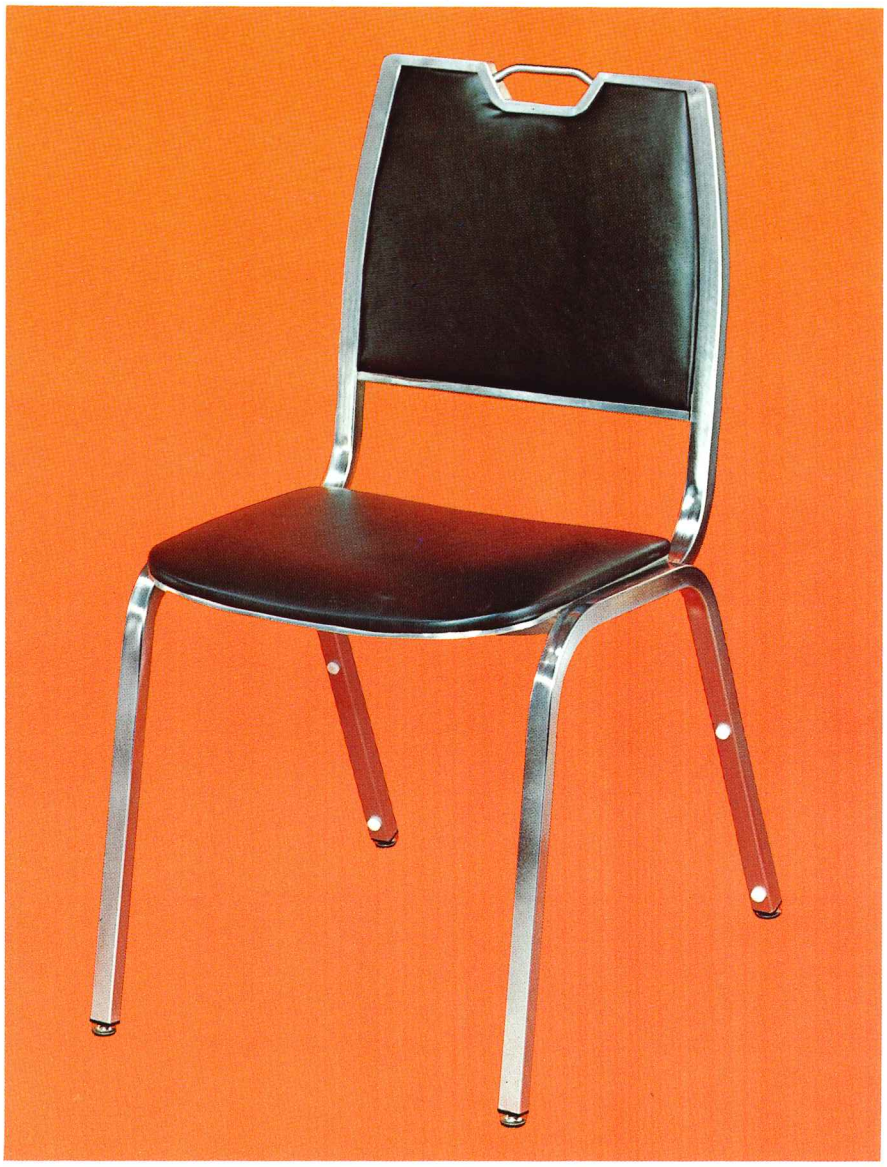
CUSTOM-LIKE CHANNEL UPHOLSTERY

Some chair models in the Howell institutional seating line (see list below) can now be supplied with a superior quality of channel-type tufting on the top of seat and front of back cushions. This luxurious type of tailoring is often found on fine automobile interiors. The method Howell uses to provide this stylish, superior cushioning is that of electronically welding three layers of material together with an inner layer of foam.

Chairs on which Channel upholstery is available are: 2000 Encore Series and 4000 Encore Series.

Range of "Chromata" Colors and the numbers to use in ordering are: Russet Channel F21, Citron F22, Marigold F23, Blue F24, Black F25, Vermillion F26, Opal White F27, Sand F28, Green F29.

HOWELL



OUTSTANDING NEW STACKING CHAIR

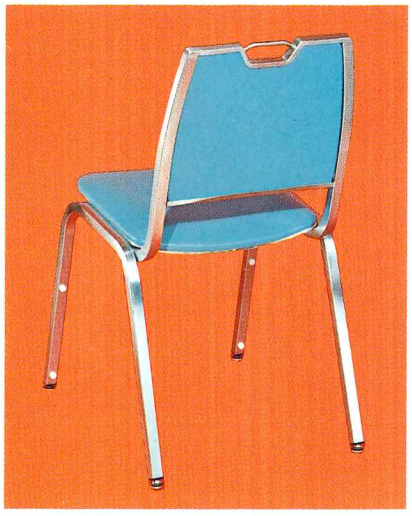
No. A-161 Mirror Chrome Finish

No. A-261 Satin Chrome (shown)

No. A-361 Walnutone Finish

No. A-861 Bronzite Finish

The sturdy tubular frame for this Howell chair is formed from heavy gauge 7/8" square tubular steel. Upholstery on seat and back comes in wide choice of colors. Note back cut-out to provide handle.



SPACE-SAVING FIBERGLASS STACKING CHAIRS

A-106 Mirror Chrome Base
A-206 Satin Chrome Base
A-306 Walnutone
A-806 Bronzite Finish Base

This newer model stacking chair is designed with a somewhat more compact base. In other words, the rear legs do not extend back as far as some. This feature permits more seating in center-of-the-room requirements where aisle movement without protruding chair legs is more important than the "wall-saver" feature. Stainless steel, rubber cushioned disc feet. Choice of colors in fiberglass molded seat.

AT LEFT:
Illustration shows how chairs nest when stacked. Can be stacked 10 high or more.

AT RIGHT:
Compact base does not extend as far back as top of chair.

HOWELL

HANDSOME HOWELL STACK CHAIR

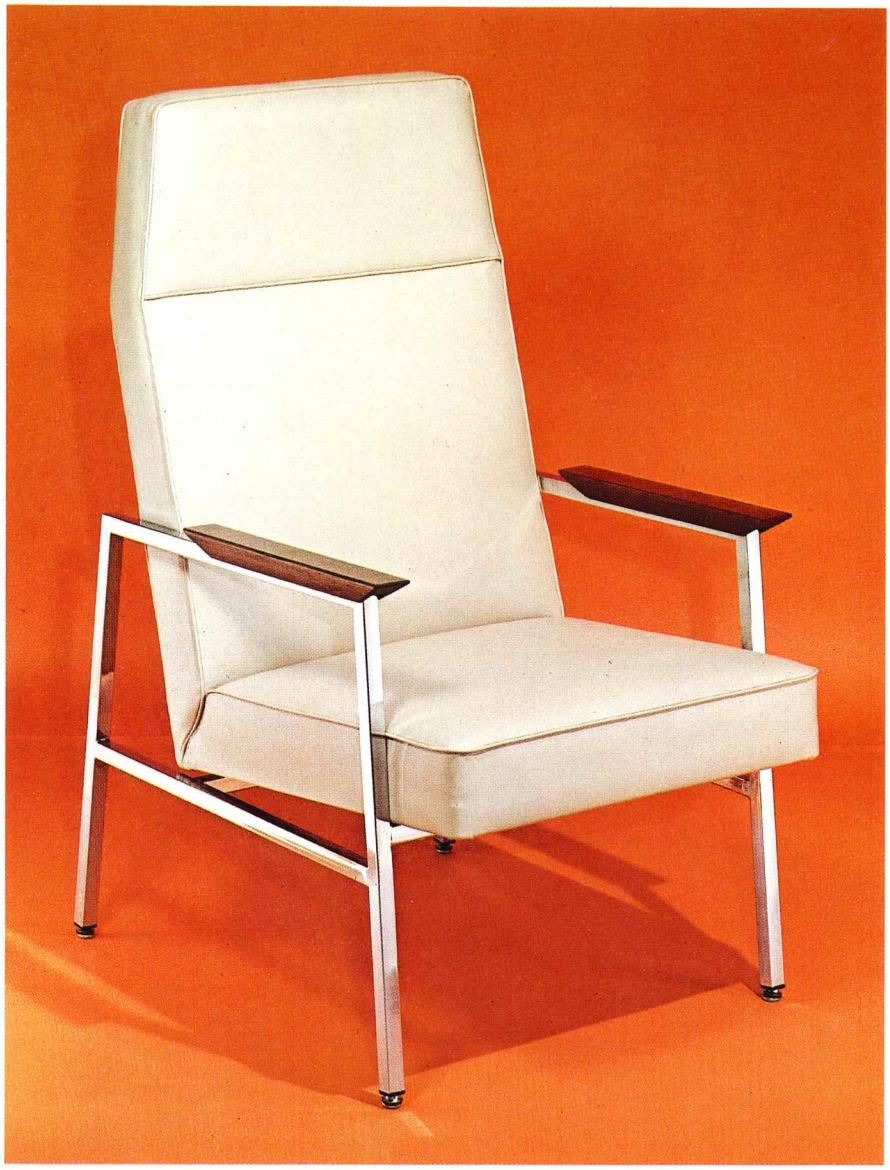
No. A-145 Mirror Chrome Finish

No. A-245 Satin Chrome (shown)

No. A-345 Walnutone Finish

No. A-845 Bronzite Finish

7/8" strong tubular steel frame supports the trimly upholstered seat and back which can be furnished in choice of many colors. Chairs stack compactly as shown. Note how handle is built into design of back.



HI-BACK "ENCORE" ARM CHAIR BY HOWELL

No. 2071 Mirror Chrome Frame
No. 2072 Satin Chrome Frame
No. 2078 Bronzite Finish Frame
No. 2079 Walnutone

Seat and back are handsomely tailored over strong metal channel framework with "no-sag" springs and foam cushioning. Pitch of back and head rest make this an ideal chair for long-period seating or studying. Chair frame is strong 7/8" square tubular steel. Glides are self leveling stainless steel with plastic floor base insert. Arm rests are walnut.
